Letter to Congressional Leaders Transmitting the Report on Progress
Toward Regional Nonproliferation in South Asia
February 8, 1994

Dear Mr. Speaker: (Dear Mr. Chairman:)

As required under section 620F(c) of the Foreign Operations Export Financing, and Related Programs Appropriations Act, 1993 (22 U.S.C. 2376(c)), I am transmitting a report entitled "Progress Toward Regional Nonproliferation in South Asia." This report is unclassified, with a classified annex. It covers developments between April 1, 1993, and October 31, 1993.

A previous report on this subject was transmitted to the Congress on April 28, 1993.

Sincerely,

WILLIAM J. CLINTON

NOTE: Identical letters were sent to Thomas S. Foley, Speaker of the House of Representatives; William H. Natcher, chairman, House Committee on Appropriations; Claiborne Pell, chairman, Senate Committee on Foreign Relations; and Robert C. Byrd, chairman, Senate Committee on Appropriations.

Statement on Senate Action on Education Legislation
February 8, 1994

I would like to congratulate the United States Senate today for moving toward a national framework for lifelong learning by passing both the "Goals 2000 Act" and the "School-to-Work Opportunities Act" on strong bipartisan votes. By approving these bills, the Senate gets an "A" in education.

Since my days as Governor, I have been committed to education reform based on world-class standards and accountability for results. Only if we demand more of our schools and students will we see expanded educational opportunity and nationwide excellence. From the time I helped draft the national education goals on behalf of the National Governors' Association, I looked forward to the day when the Federal Government would finally take the lead on education. Today's Senate action brings us closer to that day.

In today's global economy, what you earn depends on what you learn. The Senate has now opened opportunity for our children during school and as they begin their careers. Goals 2000 will write the national education goals into law and will give States and local schools new tools to meet them. The school-to-work bill will significantly enhance our effort to create an effective apprenticeship system for those who don't go to college.

These steps are vital not only for the education of our children but for the health of our economy as a whole. Our workers will only be able to cope with a world of rapid economic change if they are fully trained and equipped to compete. We will only master new technologies if this training continues throughout a lifetime. World-class education is an investment in a world-leading economy. By its action today, the U.S. Senate has moved us a step closer
